

Condition Inspection Results

We have just completed a regular condition inspection on your property, and as with other private residences of a similar age, there may be some asbestos-containing products in the basement related to the furnace.

Paul Davis Systems will be visiting your house on _____/_____/_____, _____, to remove this material. Please be assured that our employees and contractors have been properly trained in the safe removal of this material, as required by Occupational Health and Safety and Department of Government Services regulations.

If you have any questions, please call Janet Rideout at 724-3101 or email her: jlrideout@nlhc.nl.ca
