

NLHC Seeking Client Input on Housing Programs and Services

“The Way Forward” outlines Government's vision for sustainability and growth in Newfoundland and Labrador and is available online at: http://www.gov.nl.ca/pdf/the_way_forward.pdf.

One of the over 50 initiatives included in the "Way Forward" is a review of NLHC's programs and services with an aim to:

- ensure the mandate of the organization reflects current priorities;
- optimize the use of federal and provincial funding in the delivery of programs and services;
- identify the means to reduce complexity and duplication within the system; and
- realize efficiencies, improve services and streamline the organization with no negative impact on clients.

NLHC is consulting with tenants, employees and community stakeholders province-wide to share their ideas on how programs and services can be improved. We want to ensure that you have a say in how NLHC responds to your needs and that decisions about housing needs are guided by input from existing tenants and clients.

You can complete our on-line survey and share your ideas regarding our programs and services at: <https://www.surveymonkey.com/r/NLHCTenantSurvey>

We look forward to hearing from you.
